

# Sensory Friendly COVID-19 Vaccine Clinic

**3:30 - 7:00 pm**  
**Monday, March 21**  
**Second dose: April 11**

**Building for Kids**  
**Children's Museum**  
**100 W College Ave**  
**Appleton, WI**

**Individuals 5 and**  
**older and their**  
**families**

Thedacare, the Building for Kids Children's Museum, Wisconsin Early Autism Project, and the Autism Society of Greater Wisconsin are partnering to offer a sensory friendly vaccine clinic with the goal of providing a positive, supportive, and calm vaccine experience. Participants can expect a lower sensory environment, sensory fidgets, distraction strategies, and other individualized accommodations as needed. After receiving their vaccine, participants can play in the museum. The Building for Kids will also provide a pizza dinner.

The clinic will offer Pfizer vaccines and boosters to eligible community members.

Every child under 12 who participates will receive a FREE 3-month family membership to the Building for Kids.

**There is no cost for participants. Schedule an appointment here:**
