**Individuals 6  
months and  
older and their  
families**

Bellin Health, Milestones Behavioral Pediatrics, and the Autism Society of Greater Wisconsin are partnering to offer a sensory friendly vaccine clinic with the goal of providing a positive, supportive, and calm vaccine experience. Participants can expect a lower sensory environment, sensory fidgets, distraction strategies, and other individualized accommodations as needed.

Parents and other family members are welcome to schedule their boosters along with their children.

The clinic will offer the Moderna vaccine to those between 6 months and 5 years old, along with boosters (Pfizer, Moderna) to eligible community members. The flu shot will also be available at the September 24th clinic.

There is no cost to you for the vaccine. If you have insurance, an administrative fee will be billed to your insurance. Please bring your insurance card with you.

**To schedule an appointment, please call 920-445-7313 and ask to  
schedule an appointment at Milestones clinic in De Pere.**
